About the 2019 Conference: The fifty-year anniversary conference will be a special event that will celebrate the past, present, and future of sociology in the two-state region. The association has planned a number of special events that will be of interest to sociologists who practice in a wide variety of venues, as well as to undergraduate and graduate students. The association has a tradition of strong involvement of student papers, presentations, and poster sessions with significant awards for both graduate and undergraduate competitions. Many sociologists in the two-state region have incorporated fall semester projects for students with the goal of them presenting at the annual meetings of A-MSA. You can find out more about the association/conference at our website at <https://www.a-msa.org/>.
